#### Liverpool John Lennon Airport

Andrew Dutton, Head of Environment and Sustainability Colin Barnes, Environment and Safeguarding Manager

#### **Secretariat**

Mike Jones, Secretary

#### 40 **APOLOGIES**

Apologies for absence had been received from: Martin Doyle, Cheshire West and Chester Council Councillor Doreen Knight, Liverpool Council Paul Farrell, Liverpool Council

#### 41 DECLARATION OF INTERESTS

There were no declarations of interests.

#### 42 CHANGES IN MEMBERSHIP

There were no changes in membership to report.

#### 43 **APPOINTMENT OF VICE CHAIR**

The Chair invited nominations to be Vice Chair of the Sub-Committee.

No nominations were received so the item was deferred to the next meeting.

#### 44 MINUTES OF LAST MEETING

Resolved - that the minutes of the meeting of the Noise Monitoring Sub-Committee held on 20 October 2023 be agreed as an accurate record.

#### 45 NOISE COMPLAINTS LOG

The Environment and Safeguarding Manager introduced the Noise Log for the period 1 October to 31 December 2023. He provided details of runway orientation then compared complaints to aircraft movements by amount, passenger numbers, day and night, airline, and runway usage. The complaints were listed by complaints per day, number of complainants and per area. It was noted that although there were 97 complaints, there were 22 individuals making them so some individuals complained frequently, up to 39 times, and the total was three times the previous year. Departure from Runway 09 caused the most complaints – 46.

Members asked for complaints per 1,000 aircraft movements next time, to give an idea of scale. It was noted that the Sound Insulation Grant Scheme (SIGS) would be recalculated as a result of the increase in aircraft movements. In 2023, the airport was at 80% of the passenger numbers of pre-pandemic levels.

Resolved – that the Noise Complaints Log for 1 October to 31 December 2023 be noted.

#### 46 AIRSPACE CHANGE

The Head of Environment and Sustainability gave an update on the Airspace Change Process (ACP). Liverpool Airport started the process in February 2018, and proceeded to stage 4 of the 7 detailed stages, having consulted on potential proposals. When the process was paused in November 2020 Since then a national airspace masterplan had been developed and other airports in the Manchester Terminal Manoeuvring Area (MTMA) – Liverpool, Manchester, Leeds Bradford, East Midlands and Air Traffic Control (NATS) - had progressed to develop their own plans. They also undertook a review of stage 2 with revised options, which was done in Summer 2023. The next stage was a simulation to ensure that the five designs worked together and aircraft were sufficient distance apart. These options were to be tested in a simulation exercise in June 2024.

Members asked whether the pause had been financially detrimental. The Airport confirmed it had as costs had increased six-fold to review stage 2 and undertake a second consultation in stage 3. The Airport had discussed the issue with the Department of Transport and Civil Aviation Authority.

Resolved – That the update on the Airspace Change Process be noted.

#### 47 **DATE OF NEXT MEETING**

The dates of the meetings up to January 2025 will be decided at the annual general meeting on the Consultative Committee on 16 February 2024 and would then be circulated to members.

#### 48 ANY OTHER BUSINESS

There was no other business.

			& Chester	7am is a ridiculous time to	Depart 09 Airbus	normal parameters.
				wake people, especially on a	A320 Alicante	
				Sunday and even more so on	4627 NAN2V 74dB	
				Easter Sunday when so many		
				shop workers might have been		
				able to get a well deserved		
				rest. I ask again that SIGS be		
				extended to Chester. It is not		
				fair that the residents of		
				Chester suffer sleep		
				deprivation because of your		
				airport.		
				3 flights to Alicante in the		
				space of an hour is ridiculous		
				and totally unnecessary. The		
$\dashv$				damage being done to the		
Page				climate and people's health is		
g				inexcusable. I do not see why		
				Liverpool airport is even		
27				needed when Manchester is so		
7				close, has far better		
				transport connections and is		
				much easier to get to. Surely		
				one larger flight is better		
				for the environment than 3		
				smaller flights. It would		
				certainly be better for		
				residents sleep. No sooner had		
				I managed to get back to		
				sleep, I was woken by another		
				aircraft from Liverpool		
				airport, all going to		
				Alicante. Then there were		
				private planes which are even		
				worse for the environment.
